STOP LITTERING

Stop dropping rubbish its making our world unwell

Landfills are getting more and more common because of the lack of care to our planet.

Because of this vile litter birds and other wildlife suffer

RSPB helps

Grab your litter-pickers to stop the world getting sicker

99% of streets in towns centre have cigarette litter

Wildlife can mistakenly eat litter and get stuck in it.

30 million tonnes of litter are collected from our streets - enough to fill 4 wembley stadiums.

chewing gum costs £20,000 a year to clean.

Litter costs almost £1 billion in clean-up bills nationally

62% people of England drop litter - but only 28% will admit its

This littering is getting out of control and is posing safety hazards. So please help and make the world better.

DON'T LITTER

If you recycle
you can help the
world even
more by
doing the
right
thing.

If you pollute the
water + can be
really risky for
animals.

other things
can be made
if you recycle
so make the extra step
to the bin.

Recycling
can keep the
world clean
and the animals
safe.

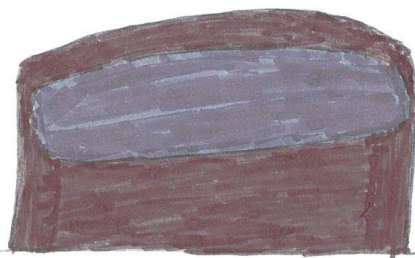

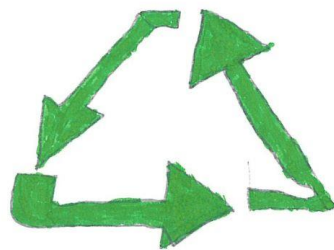

If you
put things
in the bin at
the beach
you can help
polluted
water.

Don't abandon our world!

properly

Pick up litter
in your
local
community

Be Eco friendly!

DO NOT LITTER.

Because if one person
does it more people
will do it.

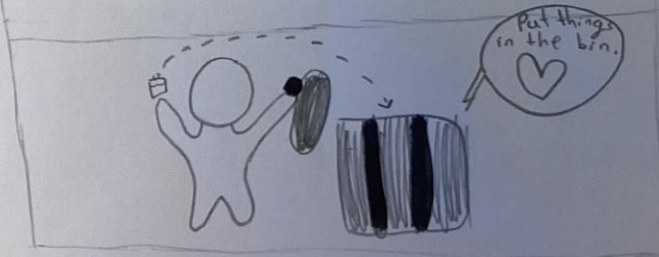

Littering is
bad for the
environment.

Don't litter food on the ground or sea because your waste is not good for environment because, there are lots of animals who are trapped in plastic like turtles if you don't stop they will expire. so please help me to save us but also animals.

YOU DON'T LITTER
IN YOUR HOME...

BUT THE WORLD
IS
YOUR HOME
