

Population and Capacity Briefing for Friday 10 June 2022

| | This week |
|---------------------------------------|---------------|
| Population | 80,115 |
| <i>Population in male estate</i> | 76,934 |
| <i>Population in female estate</i> | 3,181 |
| Useable Operational Capacity | 82,676 |
| Home Detention Curfew caseload | 2,082 |

Definitions:

1 - The Operational Capacity of a Prison is the total number of prisoners that an establishment can hold taking into account control, security and the proper operation of the planned regime. It is determined by Prison Group Directors on the basis of operational judgement and experience.

2 - Useable Operational Capacity of the estate is the sum of all establishments' operational capacity less 2500 places. This is known as the operating margin and reflects the constraints imposed by the need to provide appropriate accommodation for different classes of prisoner i.e. by sex, age, security category, conviction status, single cell risk assessment and also due to geographical distribution.
