Resident's statement

I would like to report a near miss I witnessed yesterday Thursday 18th May 2023 at approx 2.15 pm.

I was driving along Ulnes Walton Lane and there was a L driver in front followed by a transit tipper with a trailer.

We were travelling in the direction of Southport Rd and reached the S bend at Lostock Brow Farm when the transit tipper drove straight through the centre of the S bend, which clearly put him over the centre of the white line.

A car was travelling in the opposite direction and had to suddenly pull over onto the grass verge to avoid colliding with the transits trailer. At this point the transit had turned and the trailer was then right across the road.
