

**TRAFFIC USAGE EVIDENCE**

\*The videos from which photographs have been extracted will be available at the Inquiry

TRAFFIC USAGE	DATE	LOCATION	DESCRIPTION
C1	12/4/2023	Ulnes Walton Lane	Speeding vehicles and traffic volume

Former resident's statement (Mr & Mrs G Jackson)

“We moved to Ulnes Walton Lane 14th of March 2022 and moved away February 2023. One of the main reasons for moving was how busy the Lane is plus the stupid speeds people do on the Lane. This Lane has very little footpaths it's whole length and what it does have is very narrow.

“On the day we moved it took me over 10 minutes to get out of my drive. This is a country lane not. It is not an A-road. It already has too much traffic and CANNOT take more.”

[Resident's statement by Mrs L Morrissey](#)

“At 6.25am this morning, Friday 26 May 2023, I witnessed a young lady riding her horse north-bound on Ulnes Walton Lane. She was unaccompanied and riding at a time when the traffic in both directions on Ulnes Walton Lane was beginning to build.”

TRAFFIC USAGE	DATE	LOCATION	DESCRIPTION
C11 Photograph extracted from video*	29/5/2023, 1103 hrs	Junction A581/ Ulnes Walton Lane	Car trying to exit driveway close to proposed location for mini-roundabout.

The view of the car driver exiting the driveway was obstructed to the right by a parked van. As these are residential properties, it is unusual for there not to be parked vehicles along this stretch of the A581.

Prison officers must love their job so much, in such a rush to get to their job....  
 7.45am excessive speed and ridiculous overtaking on Ulnes Walton Lane this morning, whilst trying to get out of my drive.  
 So quick I couldn't get his number plate.  
 Can we not get anyone to come and sit in lay-by around that time and just see the speed they do.  
 (As you can tell I'm angry!!) 🤔 🤔 🤔 🤔 🤔

Well well... [Avacab](#), [Avacoach](#), [AvaBus & Leyland Taxis](#) absolute shame on you!

Hacking down Ulmes Walton Lane this afternoon (04/06/2023) with the horse and my partner - not once BUT TWICE one of your drivers came past doing in excess of 40mph.

The driver was breaking the law as the road limit is 40mph and completely disregarding the Highway Code of PASS WIDE AND SLOW when horse and rider are on the road.

My partner and I both signalled to the driver on each occasion to slow down and all we received back was an engine rev and more speed!!

I then called Avacab to mention that the driver's behaviour needed addressing and I did not receive any form of appropriate feedback that the incident would be dealt with nor any apology for the incident.

The person who spoke to me on the end of the phone said that they would not find out who the driver was as they had 60+ drivers on the road. So, they're telling me that they do not hold enough information on the system to work out which of their drivers was driving down Ulmes Walton Lane for a pick up and back down Ulmes

---

I then called Avacab to mention that the driver's behaviour needed addressing and I did not receive any form of appropriate feedback that the incident would be dealt with nor any apology for the incident.

The person who spoke to me on the end of the phone said that they would not find out who the driver was as they had 60+ drivers on the road. So, they're telling me that they do not hold enough information on the system to work out which of their drivers was driving down Ulmes Walton Lane for a pick up and back down Ulmes Walton Lane not 20minutes later at exactly 14.40?

I advised that maybe it be best to give information and educate ALL of their drivers on appropriate behaviour around horses and riders on the road, given the large amount of bridleways and horse riders within the Leyland area. I was then told that they would not give this information to their drivers so I would not be surprised if a similar incident happened again.

Luckily the horse I was riding is exceptionally well behaved and calm in these situations but what happened to me could very easily be much more dangerous for someone else!

TRAFFIC USAGE	DATE	LOCATION	DESCRIPTION
C15 Photographs from 4 videos*	6/6/2023, 1606 hrs	Dunkirk Lane/ School Lane/Ulnes Walton Lane	6 minutes to travel 1 mile

**Resident's statement (Mrs L Morrissey)**

“The four videos record my journey on Tuesday 6 June 2023 from the junction of Dunkirk Lane and Longmeaneygate into School Lane and on to my home on Ulnes Walton Lane, a distance of just over one mile which took 6 minutes. This was due to traffic volumes and the fact that, due to the road widths, the bus had to wait on Dunkirk Lane and then on School Lane until the junctions were clear before it could safely negotiate the left turns. Traffic heading north along Ulnes Walton Lane was such that a van driver waiting to exit a driveway had to wait until I slowed down to allow him out on to the road.”
