Executive Summary

The Housing Land Monitoring Report is an annual report that shows housebuilding trends in the Borough, including data on completions and the supply of land for residential development. This report represents the position at 31st March 2024.

A total of 291 (net) dwellings were completed during the monitoring period. A total of 7,144 dwellings have now been completed since 2010, resulting in a surplus of 1,144 dwellings against the Core Strategy requirement, taking into account prior under-provision that existed at April 2010.

At 31st March 2024 2,525 (net) dwellings that have not yet been built (including those under construction) had planning permission and there was land available for a further 358 dwellings on land allocated for housing in the Local Plan without planning permission, equating to provision for 2,883 dwellings.

1. Introduction

1.1 This Housing Land Monitoring Report (HLMR) has been prepared by Chorley Council to show housebuilding trends in the Borough, including data on completions and the supply of land for residential development. The HLMR is produced annually and covers the financial year that it follows. This HLMR reports on housing completions for the period 1st April 2023 to 31st March 2024 and the housing land supply position at 31st March 2024.

1.2 This HLMR provides an account of:

- The number and location of dwellings that have been completed during the monitoring period.
- Progress towards the Central Lancashire Core Strategy housing requirement.
- The number and location of dwellings that had planning permission as of 31st March 2024.
- The status of housing land allocations covered in policy HS1 of the Local Plan 2012-2026.
- Dwelling completions in terms of greenfield/brownfield status, windfall/allocated status, house types and bedroom numbers.

2. Annual Housing Completions and Requirements Until 2026

- 2.1 A net total of 291 dwelling completions were recorded during the monitoring year.
- 2.2 Policy 4 of the Central Lancashire Core Strategy sets out a minimum housing requirement for the Borough for the period 2010 – 2026 of 417 dwellings per year. This gives a total of 6,672 dwellings required over the plan period. At April 2010 Chorley had prior under-provision of 162 dwellings, which, in accordance with the Core Strategy, also needs to be made up over the plan period. Therefore, at April 2010 the housing requirement for the Borough was 6,834 dwellings.
- 2.3 Table 1 shows annual housing completions in Chorley since 2010.

Table 1: Annual Dwelling Completions (Net), 2010 - 2024

Year	Net dwellings completed	Requirement	Surplus/deficit during the year
April 2010 – March 2011	527	417	110
April 2011 – March 2012	552	417	135
April 2012 – March 2013	638	417	221
April 2013 – March 2014	582	417	165
April 2014 – March 2015	723	417	306
April 2015 – March 2016	597	417	180
April 2016 – March 2017	517	417	100
April 2017 – March 2018	661	417	244
April 2018 – March 2019	573	417	156
April 2019 – March 2020	640	417	223
April 2020 – March 2021	306	417	-111
April 2021 – March 2022	228	417	-189
April 2022 – March 2023	309	417	-108
April 2023 – March 2024	291	417	-126

- 2.4 Table 2 shows cumulative dwelling completions over the period 2010 - 2024 and takes account of the 162 dwelling prior under-provision. This shows that the Council is currently exceeding the requirements of the extant Local Plan by 1,144 dwellings.

Commented [GW1]: I accept this is technically true but could be viewed differently as the requirement is now the SM (so for the HDT we would report against that).

Apologies, I haven't seen a HDT report here. I've just added clarification to avoid confusion when we have to report a lower than 100% HDT result.

3. Housing Land Availability and Completions by Settlement

Availability

- 3.1 Table 3 shows housing land supply at 31st March 2024 by settlement.

- 3.2 On 31st March 2024 there were 2,525 dwellings (net) with planning permission available to be built across the borough. Of these 258 were under construction. There were an additional 358 dwellings allocated for housing, but without planning permission, in the Local Plan 2012 – 2026.
- 3.3 Chorley Town accounts for around 40% of the total housing land availability. Buckshaw Village and the Urban Local Service Centres of Adlington, Clayton-le-Woods, Clayton Brook/Green, Coppull, Euxton and Whittle-le-Woods make up the majority of the remaining availability. 20.9% of housing land availability is in rural areas including the Rural Local Service Centres of Eccleston and Withnell/Brinscall.

Completions

- 3.4 Table 4 shows the number of housing completions in each settlement since 2010. In accordance with Policy 1 of the Central Lancashire Core Strategy, most housing has been developed in Chorley Town and Buckshaw Village over the plan period with 4,002 houses completed in these settlements combined. A significant amount of housing has also been developed in the Urban Local Service Centres of Adlington, Clayton-le-Woods, Clayton Brook/Green, Coppull, Euxton and Whittle-le-Woods, just over 2,400 in total. There has been a smaller number of housing completions in the rural areas of the borough over the plan period.

3.5 Table 5 sets out the proportion of housing completions in each settlement over the period April 2010 – March 2024. Over the plan period Buckshaw Village and Chorley have had the highest proportion of completions with together over half all completions in the borough.

3.6 Over the monitoring year there was an increase in the proportion of completions in Euxton. This is due to the first completions at a major site, 'Lane between Pear Tree Lane and School Lane' There was a decrease in the proportion of completions in Buckshaw Village and Clayton-le-Woods during this period as construction finished at some large sites in these areas.

4. Progress of Local Plan 2012-2026 Allocated Housing Sites

- 4.1 Table 6 shows each allocated housing site within the Local Plan 2012-2026 along with the level of development and availability on each site at 31st March 2024.
- 4.2 4,531 dwellings have been completed since April 2012 on these sites. A total of 909 dwellings with planning permission (including those under construction) are available on the allocated sites, along with 358 dwellings allocated on land without planning permission.
- 4.3 It should be noted that the number of dwellings allocated in the Local Plan is based upon the number of units permitted/estimated on these sites at April 2012. It does not include completions on any of these sites that took place before this date. On some sites completion/availability figures have been revised upwards or downwards since April 2012, to reflect a change in dwelling numbers as a result of planning permissions granted.

5. Breakdown of Dwelling Completions

Brownfield/Greenfield Completions

- 5.1 The Central Lancashire Core Strategy sets a target of 70% of new housing to be built on brownfield land. The proportion of new dwellings developed on brownfield land met or exceeded this target up to March 2014. However, Table 7 shows that since then the target has not been met. One of the reasons for the large number of greenfield completions in recent years is the development of a number of allocated greenfield sites.

Table 7: Brownfield/Greenfield Completions (Gross)

Year	Dwellings Completed				
	Brownfield		Greenfield		Total
